11. STRENGTHS (in 100 Words)

I am a punctual, hardworking, determined, dedicated and visionary academician cum administrator. I have served the university as a teacher, HOD, Coordinator, Dean, Director, with additional Charge of Finance officer simultaneously. Presently, I am working as Pro Vice-Chancellor, Project Director of World Bank Project TEQIPIII with a financial Power of Rs 50 lakhs. I am working in two shifts to handle various duties assigned to me. I have headed several inquiry Committees. I have the ability to make right and mature decisions without any biasness and external interventions. I am dynamic, physically fit and strong also.

12. YOUR VISION FOR THE UNIVERSITY (up to 500 Words)

" Learn, Discover and Create to benefit society at the highest global levels of excellence by excelling academically, learning and research"

I dream of emerging innovation in response to critical problems faced by the university, society, industry, nation and globe including new technologies, student, staff accommodation, learning facilities, higher education affordability, STEM, university-industry collaborations.

My vision to introduce the research orientation eco-system and make the University one of India's best for research and innovation. Furthermore, I will make sure that research is not only academic but is beneficial to the industry, to be cultivated on a sustainable future through a proper, acceptable and efficient industry-academic relationship. I will emphasize on development of moral character, enable learners to be ethical, rational compassionate, caring with an urge to engage, vigorously and fearlessly in the spirit of truth by providing a platform to debate with the purpose to learn and re-learn while the same time prepare them for gainful employment. Priority will also be to develop leadership in public life by offering an environment which stimulate and nurture their attitude and interest for assuming leadership role in public life. To develop human resources who are competent to manage socio-economic, technical and environmental issues in their chosen field of specialization. Innovation of new technologies, process, and plausible solutions to the problems faced at local, national and global level respectively to advance social and community development, foster economic competitiveness and improve the of life of people. I want the university contribute to establish a green world with the power of education. Education can play important role in elimination of poverty.
